

# OUR MISSION

## WHY?

We care about our customers. We want to improve their comfort and solve their problems. We believe that solving problems lets our customers focus on the people and things most important to them.

## HOW?

We improve our customers' comfort.

We increase their homes property values through skilled workmanship.

We treat customers' homes as if it were our own.

We hire employees who listen and want to solve customer problems.

We install and service safe and healthy IAQ products and service them.

We provide solutions to help our customers save water, electricity, and gas.

We prefer equipment that is designed, engineered, and designed in the United States.

We prefer products that are well made, are energy star rated and have long warranties.

We educate our customers, our community, and our staff.

We let customer choose the best options for them.

We provide our employees with good wages, benefits, a safe work environment, and an opportunity to improve their lives.

We better our local community through volunteering and charitable works. We are currently involved in Rotary, Light of Life Mission, Joseph Grohe Foundation and more.

## WHAT?

We specialize in residential service, repair, and installation for plumbing, HVAC, boilers, indoor air quality, water filtration, and ductless systems in the South Hills of Pittsburgh.
